

HANGING GARMENTS IN CONTAINER ON BAR SYSTEMS

HANGING container packing:

COMMENTS FOR BOTH METHOD A AND B

Each garment on a plastic hanger with logo, and with sizemarker on hook (black color with grey text).

Covered with a polybag with sticker mentioning style, quality, and size (If it is a suit, the information should be fully for both jacket and pant).

Polybag must be closed at bottom.

Should be placed in either assortments or as unassorted in the container

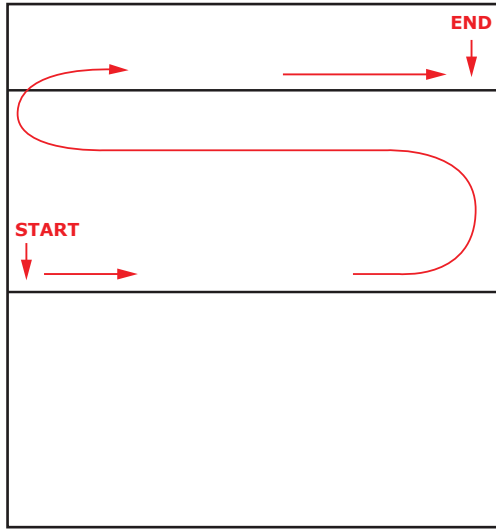

- according to the order. Each assortment or each new solid size should be marked with an extra marker in strong color to divide the assortment or size.

The marker should be at the first garment in the assortment. 1st garment in the assortment should be at left hand side. Garments should be hung so the front of jacket is to the left side.

Please visit our website www.pwtbrands.com and study all packing and shipment details!
